

CorelDRAW® Volume Licenses for Business & Enterprise...

Simple - Flexible - Cost-effective: for Windows or Mac

When it comes to purchasing software, your organization deserves the flexibility to make the right choice for its needs, which is why you don't believe in a one-size-fits-all approach to licensing. With Corel licenses, you can decide whether to opt for a subscription, a single business license, or the Enterprise license for a larger scale deployment.

New to this year, CorelDRAW Graphics Suite licenses offer even greater choice, as they are available for **Windows or Mac**. Developed with the Apple user in mind, CorelDRAW Graphics Suite for Mac delivers the design experience business customers would expect, with Dark Mode and Touch Bar support, and a completely native Mac look and feel.

Lease or Purchase – The Choice is Yours

Subscription License

CorelDRAW subscription for volume licenses offers flexible annual payments based on the number of seats needed, providing the lowest up-front costs. The lower annual payment plan and accessible levels ensure your Business is always using the most up-to-date version of the products.

Perpetual License Options

Single License

A CorelDRAW Single user license requires a one-off payment which gives you the right to own the software. It's perfect for those who rely on CorelDRAW as an integral component to its operations, and unlike a subscription, you have the right to use the software without being bound by continual ongoing usage fees. If Single user license customers want to stay on the latest annual CorelDRAW release, a new Upgrade Protection Program (see below) is now available.

NEW Upgrade Protection Program

If you are a small business that requires a single user license, you have the option to add the NEW CorelDRAW Upgrade Protection Program. The CorelDRAW Upgrade Protection Program is an affordable way to stay current on all of the latest features. It is an easy-to-own, annual payment plan, which you can add on as an extension to your license, which means that you'll get the latest version of CorelDRAW when it becomes available, as long as your account is active. This annual program ensures you'll be using all the

latest product tools and enhancements, as well as have the very latest Windows OS support, at the lowest 'new version' price. You can sign up once and then forget about it. Unlike a subscription model, if you discontinue your Upgrade Protection Program, you are still entitled to own and continue to use the last version of the CorelDRAW product that you purchased.

Enterprise License

CorelDRAW Enterprise licenses are available for businesses that require 5 or more license seats. Along with huge cost savings awarded to larger site installations, the Enterprise License includes CorelSURE Maintenance, which provides access to the latest version of **both CorelDRAW Graphics Suite for Windows and CorelDRAW Graphics Suite for Mac** when they become available. For the first time, businesses can select their preferred platform, under the same Enterprise license agreement, at no additional cost. A more complete overview to CorelSURE Maintenance, and the advantages it offers Enterprise customers, can be viewed overleaf.

NEW Optional Add on: CorelDRAW.app Enterprise

As an optional Add-on to CorelDRAW Graphics Suite Enterprise licenses, the CorelDRAW.app Enterprise pack offers all users in the company domain, access to shared designs through Microsoft SharePoint or G Suite managed Google Drive. No installation is required, users can simply sign in using their corporate Microsoft Office 365 or G Suite account to review, annotate and approve shared designs, or create graphics in a web browser which can be shared through the corporate cloud.

Volume Discount Levels

CorelDRAW Licensing begins at one seat and scales from there. The larger the deployment, the greater the saving. Plus, we automatically offer generous discounting to government agencies, charities and non-profit organisations, whose discounted pricing starts at Level 3 - typically a price level set for large Organisations with 251 seats or more.

	Number of Seats
CorelDRAW Single-user License	1+
CorelDRAW Enterprise License Level 1	5-50
CorelDRAW Enterprise License Level 2	51-250
CorelDRAW Enterprise License Level 3	251+

CoreISURE Software Maintenance – inclusive with the Enterprise perpetual License

A Promise to Your Team's Future

The CoreISURE Software Maintenance program is designed to ensure you the greatest possible return on your CorelDRAW Enterprise license, while minimizing your risk. CoreISURE provides the support, resources, and peace of mind employees need to do exceptional work and produce extraordinary results.

What you get with CoreISURE

- **Up-to-the-minute upgrades – for both CorelDRAW Graphics Suite for Windows and CorelDRAW Graphics Suite for Mac**
CoreISURE guarantees you access to new upgrades of both **CorelDRAW Graphics Suite for Windows and CorelDRAW Graphics Suite for Mac**, the moment they're live, guaranteeing your team are always working with the most powerful, secure and current set of tools – on the platform of choice.
- **Discounting and price protection**
Growth and expansion are hallmarks of a company's success. Your software shouldn't penalize you for them — and with CoreISURE, it won't. Cumulative license discounts are included with your membership meaning your organization will benefit from further cost savings if additional licenses need to be added later on.
- **Centralized control & compliance**
CoreISURE gives you control over your software distribution and activity. Your IT administrator has the flexibility to provision, track and deploy the software based on your organization's security requirements, plus with a single key you can install multiple copies, enabling a smoother, faster, centralized deployment.
- **Version flexibility**
You don't need to have the latest version of your software to enjoy the benefits of CoreISURE. CoreISURE allows you to license the previous version of your CorelDRAW product and upgrade gradually.
- **Global licensing and language support**
CoreISURE makes it easy for your business to respond to the demands of a global marketplace and workforce. You can request any available language you need, and your benefits will be extended to all licenses you acquire during your coverage period, without additional cost or effort.
- **Platform virtualization**
With the help of common virtualization technologies, CorelDRAW products support desktop virtualization as part of CoreISURE software maintenance. This offers you additional flexibility in deployment.

- **Quick start launch guidance**
New deployments executed correctly mean fewer issues downstream, so with CoreISURE, you'll receive a dedicated team guiding you step-by-step through the launch process, setting you up for problem-free success from the get-go.
- **Invite-only opportunities**
With CoreISURE, you'll have access to exclusive webinars, training sessions, events and more, led by internal experts and real-world power users who can help you develop your skills, build your network and maximize your software's potential.
