From One-Color Engraving to Full-Color Printing in CorelDRAW

Tuesday, 2/24/26
2:30PM-4:00PM

Simple DESIGNER

This session begins with foundational CorelDRAW skills, including bitmap-to-vector tracing & logo customization for engraving & imprinting. From there, we'll explore advanced techniques—applying high-end effects & digital enhancements to elevate your artwork. Finally, you'll learn how to present your multi-format designs by creating custom proposal forms that include product visuals & company branding.
Whether you're a beginner or an experienced user, this session offers valuable takeaways for everyone.

- The foundational CorelDRAW skills you should understand
  - Menus, Tools & Dockers
  - Selecting; Marque & Shft + Click
  - Understand Grouping & Alignment

- Bitmap-to-vector tracing
  - Finding & getting *CorelCAPTURE
  - >Bitmaps >Outline Trace >Low quality image
  - Group by Color, Detail & Smoothing
  - Color consolidation (inside PowerTRACE)

- Logo customization
  - for engraving
  - for imprinting

o KIS ! - think about ANY popular logo
o B&W or Grayscale? -decide
o Color number or Full? -decide

- Techniques—applying
  - high-end >Effects
  - digital enhancements to elevate your artwork
  - production

o Every image is different. -Photo vs Logo.
o Layers
o Color highlights
o Less is more
o Saving (keep working file), Exporting. PDF's are not it
o Flattening for color mode & resolution
o Your printer company will help

- Presenting your multi-format designs
  - custom proposal forms
  - product visuals
  - & company branding

- Whether you're a beginner or an experienced user, this session offers valuable takeaways for everyone
  - Questions:

Corel - Made - Easy System
